

January 4, 2022

To Residents and Family Members:

COVID-19 Update --

**Current Outbreak - December 20, 2021 to January 4, 2022**

- 14 Employees have tested positive for COVID-19
- 4 Contractors have tested positive for COVID-19
- 10 Residents have tested positive for COVID-19

Starting tomorrow, if all goes well, some of our residents will be moving off the special care unit and back to their long term care units.

Also, some of our employees & contractors have completed the required period of isolation and have returned to work.

I cannot stress this enough, please consider all risks for the resident, the employees and yourself before deciding to enter the facility and visit your loved one.

Thank you.

Sincerely,

Peter A. Panos

Administrator
