

January 25, 2021

To Residents and Family Members:

Update on COVID-19 test results for Saturday & Sunday. Harborview & Tidewater Cove had residents with positive test results.

Saturday, January 23, 2021 –

1 Resident from Tidewater Cove tested positive for COVID-19

1 Resident from Harborview tested positive for COVID-19

1 Employee tested positive for COVID-19

Sunday, January 24, 2021 –

1 Resident from Tidewater Cove tested positive for COVID-19

As you know, during this outbreak, we have been isolating COVID-19 positive residents in our specialty COVID Unit on Mallard Way. Residents in isolation need to stay on the COVID Unit for at least 10 days and until their symptoms have improved and they have been without fever for at least 24 hours without fever reducing medications. Starting Friday, January 22<sup>nd</sup> we began transferring some residents off the COVID Unit and back to their original rooms.

Thank you for your patience and understanding.

Sincerely,

Peter A. Panos

Administrator
