

April 15, 2021

To Residents and Family Members:

Good News to report ---

We have received COVID-19 testing results from the PCR Tests & the POC Tests that were collected from the residents on Monday and Tuesday of this week. All test results were negative. As stated on the April 13th communication, if the first round of PCR testing reveals no additional COVID-19 cases, then resident visitation will resume.

Beauty Shop will reopen today, 4/15.

Ordering food from the outside will be allowed, starting today, 4/15.

Flower deliveries can be accepted, starting today, 4/15.

Resident visitation will resume starting Friday, 4/16.

We will continue testing residents weekly until we have 2 weeks of testing cycles with no new positive test results.

All employees & contractors will continue to be tested two times per week, Mondays & Thursdays. Employees & contractors that provide services on Bay Lane & Riverwalk will also be POC tested at the front door on Tuesdays, Thursdays & Saturdays.

We have not received additional positive COVID-19 test results on employees or contractors since Monday, April 12th.

Our COVID Committee continues to closely monitor COVID-19 and staying abreast of updates from the Centers for Disease Control (CDC), and the local and state health department.

Stay safe & Stay Healthy.

Sincerely,

Peter A. Panos

Administrator
