

April 27, 2022

To Residents and Family Members:

We continue at Citizens Care to have no new positive COVID test results.

Congratulations to all residents, visitors, staff & contractors for continuing to stay COVID Free.

Unfortunately, the Community Transmission Rate in Harford County increased from MODERATE to **SUBSTANTIAL**.

This change in Community Transmission triggers changes in COVID Testing for our visitors. As April 27<sup>th</sup>, visitor testing will be re-started. Point of Care (POC) Tests will be performed prior to entering the facility and the results are good for 3 days. Specimen collection is done by the visitor. Only visitors with Negative test results will be allowed entrance. All visitors must be screened for symptoms on arrival. Testing takes approximately 15 minutes. We will discontinue weekly distribution of COVID Test Kits until further notice.

I encourage you to contact me with questions and/or concerns. Phone 410-942-2101 or Email [pete\\_panos@citizenscarecenter.com](mailto:pete_panos@citizenscarecenter.com).

Sincerely,

Peter A. Panos

Administrator
