

Citizens Care

& REHABILITATION CENTER

August 9, 2020

To Residents and Family Members:

On Sunday, August 9, 2020, we were notified that 1 (one) Citizens Care employee tested positive for COVID-19. The employee's testing sample was collected on August 4, 2020. This employee was removed from the schedule immediately after we were notified of the positive test results.

On August 3rd & 4th COVID-19 testing was completed for all staff & contractors, a total of 192 COVID-19 tests, 191 tests were negative.

Unfortunately, this one positive COVID-19 test result means that the Outside Visitation that started on July 29th must be put on hold. Also, we will now be required to start testing residents for COVID-19.

We are continuing to closely monitor COVID-19 and staying abreast of updates from the Centers for Disease Control (CDC), and local and state health department.

Please expect another communication in a few days with additional information relating to the COVID19 testing for residents and the visitation policy.

Thank you for your patience and understanding during this pandemic.

Peter A. Panos
