

December 24, 2020

To Residents and Family Members:

Our test results have come in for the COVID-19 testing that was administered to Staff & Contractors on Monday, December 21<sup>st</sup> & Wednesday, December 23<sup>rd</sup>. Everyone tested negative for COVID-19, **except for 1 employee**. This 1 (one) positive test result puts us back into outbreak mode. We are administering a PCR COVID Test to all residents today. We will revert back to testing residents weekly and testing staff & contractors two times per week.

Our Director of Nurses, Cassie Evering or one of her administrative nurses called all responsible parties yesterday to obtain consent for the vaccine. They left a message when there was not an answer. Please try to get back to the facility as soon as possible with your decision.

Merry Christmas to All!!

Sincerely,

Peter A. Panos

Administrator
